

Ten things you should know about Carmignac P. Emerging Patrimoine

Published Length
April 16, 2021 3 minute(s) read

On 31 March 2021, the Fund celebrated its 10th anniversary. (Re)Discover the features which make this Emerging Market allocation fund so unique:

1. A "Patrimoine" philosophy

The Fund seeks to capture the upside of Emerging Markets while mitigating the downsides, making it a unique solution for investors seeking a diversified, whilst cautious, emerging-market exposure.

2. A multi-asset approach

The Fund combines three performance drivers (equities, bonds and currencies) and is non-benchmarked, enabling the Fund Managers to invest freely across Emerging Markets and take advantage of decorrelation among the different asset classes, regions and sectors.

3. A selective process

The Fund Managers develop a clear and distinct view on each asset class within each country and choose investments that match their strict selection criteria and which they strongly believe will continue to grow over the long-term.

4. A socially responsible investment (SRI) lens

A strong SRI process for all asset classes (equities, corporate and sovereign bonds), which favours the selection of countries and companies that deliver solutions to environmental and social challenges¹.

5. Active, flexible management

The Fund's ability to vary the equity exposure from 0 to 50% and modified duration range from -4 to +10, as well as its net currency exposure (-25% to 100%), give the Fund Managers the flexibility they need to swiftly adapt to changing market conditions.

6. An experienced team

Xavier and Joseph have been co-managing the Fund for over 5 years. They work closely with the rest of the management team to seize the most attractive opportunities, drawing on Carmignac's longstanding expertise in Emerging Markets and flexible asset management.

7. An outstanding 2020 performance with lower volatility

Last year, the Fund generated a +20.4% performance versus +1.5% for its reference indicator and +1.6% for its Morningstar category² with a lower volatility.

8. An appealing risk/return positioning

The Fund ranks in the 1st quartile of its Morningstar category for its return, volatility, Sharpe ratio, Sortino ratio and Calmar ratio over the short, medium and long term (1, 3 and 5 years)³.

9. A strong resilience in down markets

The Fund ranks in the 1st quartile over 1, 3 and 5 years for its maximum drawdown, and has a lower maximum drawdown than most Emerging Markets indices over 5 years⁴.

10. A recognized investment approach

The Fund has the French sustainable label “Label ISR”; is rated 5 stars by Morningstar over 3 years, 5 years and overall; and its Fund Managers are both rated AA by Citywire⁵.
